

## CONNECTIVITY SOLUTION

Connect to your equipment

### DESCRIPTION

EQUIP CONNECT is a connection module allowing the recovery of the data of your equipment in the Cloud. The information is transmitted to you via the Cloud and helps you manage your machine fleet. Online access is dedicated to you for each device.

- Fault reporting
- Operation
- Emergency stop
- Intensity & overcurrent
- Water level measurements
- Temperature measurements

Secure data transfer and storage

- Equipment visualization
- Notification of faults
- Online access on desktop & mobile

### MODULE INSTALLATION

- When installing EQUIPWATER equipment
- On existing equipment of all brands

### BENEFITS

- ➔ Data visualization on Mobile or Desktop
- ➔ Equipment operation check
- ➔ Plan maintenance operations
- ➔ No power supply
